PRIMARY CARE HEALTH FACILITY
FINANCIAL ASSISTANCE SUB-AWARD
CITY OF FALSE PASS, ALASKA**

PROJECT NO. AN 02-G47

DATE OF DOCUMENT:
October 2002

A. RELATED AGREEMENTS

This project is being carried out under the provisions of the following agreements:

- Denali Commission Financial Assistance Award Project Number 0071-DC-2002-124, Amendment 1, August 2002
- Memorandum of Understanding Between the Denali Commission and the Alaska Native Tribal Health Consortium for Alaska Rural Primary Care Facilities and Sanitation Facilities Planning, Design, and Construction, dated July 2002

B. SCOPE OF PROJECT

This project will renovate and expand an existing health clinic in the City of False Pass, Alaska. The scope of this project includes design and planning, site preparation, materials and equipment, construction, and labor.

C. PROJECT FUNDING

Denali Commission funding for this health facility improvement project has been made available to the ANTHC through a separate Financial Assistance Award (FAA), or amendment to an existing FAA, between the Denali Commission and the ANTHC. It is understood that funds will be transferred in a lump sum and in advance of project initiation. Project activities will not begin until funding is made available to ANTHC.

D. PROJECT MANAGEMENT METHODOLOGY

In conformance with the current Memorandum of Understanding Between the Denali Commission and the ANTHC for Alaska Rural Primary Care Facilities, the following Project Management Methodology option has been selected by the City of False Pass:

The City shall assume responsibility for the design and construction management of the project with oversight and intermittent technical assistance by ANTHC. The local participant shall retain the services of a professional project manager, engineer, and/or contractor for the services defined in the Sub-Award. Project design shall be completed through a competitively selected architect and engineering (A/E) contractor for the City of False Pass. Project Construction shall be through City force account construction method.

E. PROVISIONS FOR PROJECT COMPLETION

The following sections from the ANTHC, DEHE Primary Care Facility Sub-Award Provisions Manual (Orange Book), dated April 2002, are incorporated into this Agreement by reference. For the purposes of this Agreement, all references to "Local Participant" shall mean the City of False Pass.

- Section 1, "Provisions for All Sub-Awards"
- Section 2, "Assurances for All Construction Projects (Standard Form 424D)"
- Section 3.18, "Local Participant Procurement Provisions"
- Section 4, "Provisions for Local Participant Managed Force Account Labor, and Local Procurement of Force Account Management"
- Section 5, "Insurance and Indemnification Provisions for All Sub-Awards"

*RESOLUTION 1. CITY RESOLUTION TO RECOGNIZE TRIBAL ENTITY RIGHTS FOR THE
DISPOSITION OF CULTURAL ITEMS AND/OR ANCIENT HUMAN
BURIALS, ASSOCIATED ITEMS, AND ARCHAEOLOGICAL REMAINS*

RESOLUTION NO. 02-03-06

WHEREAS, the City of False Pass City Council, hereinafter called City Council, is the governing body of the City of False Pass, Alaska, and

WHEREAS, the Alaska Native Tribal Health Corporation, hereinafter called the ANTHC, in coordination with other parties, is providing a grant for construction of health facilities in City of False Pass, Alaska under ANTHC Project No. AN 02-G47 to provide for the improved health and welfare of the residents of City of False Pass, Alaska, and

WHEREAS, the requirements of the National Historic Preservation Act, hereinafter called NHPA, provide for cultural resource identification and protection through avoidance or mitigation to avoid unnecessary disturbance of reported or known human burials, and

WHEREAS, it is the desire and intent of the City Council to comply with all provisions of the NHPA, and

WHEREAS, there is no known controversy anticipated between the proposed health project and known or reported ancient human burials, associated items, or archaeological sites, and

WHEREAS, the False Pass Tribal Council Village Council is the legally recognized local Native American group for conducting affairs regarding the Tribal relationships for the local Native Alaskans in City of False Pass, Alaska.

NOW THEREFORE BE IT RESOLVED, that the City Council recognizes the rights of said Tribe to determine the appropriate treatment and disposition of any and all ancient human burials, funerary objects and archaeological artifacts which may be discovered, exposed, or excavated during ground disturbances associated with construction activities required for building or installing health facilities in City of False Pass, Alaska.

BE IT FURTHER RESOLVED, that any contractor, employee or consultant engaged by the local governing body for the purposes of such construction shall be required, by written statement in the documents engaging their services, to refer any and all discovery of cultural resources (including ancient human remains) subject to the provisions of this resolution to the current duly authorized leaders or representatives of said Tribe and to abide by the decisions of such leaders or representatives in making appropriate disposition of such objects

CERTIFICATION:

Adopted at a duly convened City Council meeting of the City of City of False Pass at which a quorum was present on (Date).

RESOLUTION 03-04

A RESOLUTION TO PROVIDE FOR THE DISPOSITION OF CULTURAL ITEMS, AND / OR ANCIENT HUMAN BURIALS, ASSOCIATED ITEMS , AND / OR ARCHAEOLOGICAL REMAINS FOR THE CITY OF FALSE PASS SANITATION PROJECT

WHEREAS: The False Pass Tribal Council is the duly constituted Native American Tribe recognized by the Federal Government of the United States; and

WHEREAS: The False Pass Tribal Council is the duly elected governing body of the Native Village of False Pass, authorized to act by and on behalf of its Members; and

WHEREAS: the Alaska Native Tribal Health Consortium, hereafter the ANTHC, in coordination with other parties, is providing a grant for construction of sanitation facilities in the City of False Pass, Alaska under ANTHC Project #: AN 02-G47 to provide for improved health and welfare of the residents of False Pass, Alaska; and

WHEREAS: the requirements of the National Historic Preservation Act, hereinafter called NHPA, provide for cultural resources identification and protection through avoidance or mitigation to avoid unnecessary disturbance of reported or known human burials; and

WHEREAS: the NHPA requires Tribes to be consulting parties and contains stipulations regarding the appropriate treatment and disposition of human burials, associated items, and archaeological artifacts; and

WHEREAS: There is no know controversy anticipated with the proposed project and any known or reported ancient human burial, associated item or archaeological site; and

WHEREAS: the excavation activities associated with construction may result in discovery of ancient cultural items (i.e. human burials, associated items, and archaeological artifacts,); and

WHEREAS: it is the interest of all parties concerned that there be no unnecessary delays on the completion of the construction of the sanitation facilities; and

NOW THEREFORE BE IT RESOLVED: that the False Pass Tribal Council expressly stipulates the following conditions for disposition of and control over any and all cultural items discovered on all but private lands during construction of sanitation facilities by all parties to facility construction operations:

1. The Tribe has responsibility to identify any know or reported archaeological site(s), artifact(s) or ancient human remains to avoid unnecessary damage to sensitive resources.
2. Construction shall be delays on vicinity of the discovery until notification as part 36 CFR 800 is complete.
3. Appropriate mitigation measures shall be determined as part 36 CFR 800, and all mitigation shall be performed in conformance with 36 CFR 800.
4. An archaeologist retained or employed by any party to facilitate construction operations, will view and document any and all cultural items discovered during excavation if an adverse effect determination has been made.
5. If removal of ancient human burial remains necessary, the archaeologist shall remove the entire body. Unless the Tribe requests further study of the remains, tests upon photographs of any ancient human remains will nor occur unless specific, separate agreements have been made with the Tribe.
6. If a modern human burial is discovered, the Village Public Safety Officer shall be contacted to determine if a criminal's act can be identified. If the burial is from an archaeological context, the burial will be treated as archaeological remains and need no be treated as a scene of crime.
7. The Tribe assumes full responsibility of any and all cultural items discovered during excavation, on all but private lands.
8. The Tribe reserves the inherent right to determine the appropriate disposition of any and all cultural items discovered during excavation, on all but private lands.
9. The inherent claims or rights of the Tribe are not diminished by the fact that the land is under ownership by another party.
10. If the Discovery is made on Federal Lands, Indian Allotment lands, or lands not you conveyed to the Village or Regional Corporation, parties to facilitate construction operations shall comply with the Native American Graves Repatriation Act if appropriate.
11. All other inherent rights and claims regarding any and all cultural items discovered on any lands other that private lands during excavation of or in support of facility construction not expressly covered in this resolution are reserved to the False Pass Tribal Council alone.

BE IT FURTHER RESOLVED: that the Gilda M. Shellikoff, President is hereby appointed official representative for the False Pass Tribal Council for the purposes of implementing decision - making actions specified in this resolution.

PASSED AND APPROVED ON THIS 9th DAY OF NOVEMBER, 2002

Gilda M. Shellikoff, President

Lolly Larsen, Secretary / Treasurer

*RESOLUTION 3. CITY RESOLUTION TO AUTHORIZE THE MAYOR TO REPRESENT THE
CITY COUNCIL*

RESOLUTION No. 02-03-07

WHEREAS, the City of False Pass City Council, hereinafter called the City Council, is the governing body of the City of City of False Pass, Alaska, and

WHEREAS, the Alaska Native Tribal Health Consortium is assisting the City Council in providing adequate health facilities for the residents of City of False Pass, and

WHEREAS, said City Council has a duly authorized Mayor to represent it in matters concerning health facilities development, design, and construction.

NOW THEREFORE, be it resolved that said City Council hereby authorizes the Mayor to enter into Agreements with the Alaska Native Tribal Health Consortium on behalf of the City of False Pass concerning the provisions and transfer of health facilities for City of False Pass, Alaska.

BE IT FURTHER RESOLVED that said City Council will cooperate with the provisions of any Agreement entered into by the City Council representative and the Alaska Native Tribal Health Consortium and such provisions will be duly carried out.

BE IT FURTHER RESOLVED that this authorization shall remain in effect and shall apply to all forthcoming and successive health facility agreements until further notice is provided by the City Council.

Anchorage, Alaska 99508

MEMORANDUM

DATE: October 2002

FROM: Environmental Review Officer

SUBJECT: City of False Pass, Final Environmental Review
Project No. AN 02-G47

TO: FOR THE RECORD

Based upon the scope for this project, an environmental review in accordance with the National Environmental Policy Act (NEPA) and the National Historic Preservation Act (NHPA) has been completed. The Alaska Native Tribal Health Consortium (ANTHC) has considered all applicable potential environmental concerns (specific and cumulative effects) associated with the project in consultation with applicable federal, state, and local authorities.

FINDINGS

The ANTHC uses the Indian Health Service (IHS) environmental review procedures for conducting environmental analyses of all health facilities projects, as outlined in the *Environmental Review Manual*, the second edition of which was issued in January 2000. This environmental review finds that no further environmental investigation is necessary. All actions involving construction have been reviewed and no extraordinary or exceptional circumstances were found to exist. It is therefore recommended that the Denali Commission approve a determination of eligibility for categorical exclusion from the requirement to conduct further environmental evaluation for this project. Current IHS policy (Federal Register, Vol. 58, No. 3, January 6, 1993, pp. 569-572) allows for categorical exclusion of health and sanitation facility projects that do not have a significant impact on the environment, as determined by the attached "Environmental Review and Documentation."

BACKGROUND

False Pass is located on the eastern shore of Unimak Island on a strait connecting the Pacific Gulf of Alaska to the Bering Sea. It is 646 air miles southwest of Anchorage. It lies at approximately 54.85394° N Latitude and -163.40883° W Longitude. (Sec. 34, T061S, R094W, Seward Meridian.)

The population of False Pass, as of December 2001, according to the Alaska Department of Community and Economic Development, was 76 people.

ENVIRONMENTAL RESOURCES OF IMPORTANCE

This project involves the expansion and renovation of the health clinic in False Pass. A material source has been identified and is approved by the US Fish and Wildlife Service. The ANTHC will obtain signed resolutions from the City and the Tribal IRA Councils regarding procedures to follow in the event that human remains or cultural resources are uncovered through development. The proposed work is taking place in previously disturbed ground. The ANTHC conducted a literature and data base survey that concluded there are no known or reported sites in the vicinity of the health clinic. For these reasons, the ANTHC has determined that no historic properties will be affected, and this finding will be shared with the State Historic Preservation Officer. Although False Pass lies within the winter range for the listed endangered specie, Stellar's Eider, the ANTHC has determined that no adverse effects are likely to occur upon the Stellar's Eider because construction work is unlikely to take place in the winter, the material source has been approved by the US Fish and Wildlife Service, the work is taking place in previously disturbed ground, and work is taking place within established community boundaries. The US Fish and Wildlife Service will be contacted for concurrence with these findings. There are no other identified environmental resources of importance that likely would sustain direct adverse impacts as a result of this project.

SCOPE OF WORK

This project will renovate and expand an existing health clinic in the City of False Pass, Alaska. The scope of this project includes design and planning, site preparation, materials and equipment, construction, and labor.

PROPOSED MITIGATION MEASURES

Given the environmental review performed by the ANTHC, no mitigation activities are proposed for this project.

SUMMARY

The False Pass will be responsible for ensuring that final design plans for health facilities will be submitted to the appropriate federal and state agencies for review and approval. In addition, the community of False Pass, Alaska is responsible for compliance with all applicable federal, state and local environmental laws, regulations, and requirements during all phases of the project, and for obtaining all necessary construction permits.

In any discovery situation of cultural items and/or human remains encountered during the course of the project, the ANTHC shall direct the community to stop construction activity in the area of discovery. The community shall further be directed to notify the ANTHC and the Denali Commission to pursue appropriate steps with the State Historic Preservation Officer for developing an acceptable course of action prior to resuming construction activities in the impacted area.

In the event of any other unforeseen discovery which could change the environmental determination, the community shall be directed to notify the appropriate authority, the ANTHC, and the Denali Commission to develop an acceptable course of action prior to resuming construction activities in the impacted area.

With the scope of work outlined in the Cooperative Project Agreement, the ANTHC has completed the environmental review. If the scope of work is changed in the future, then the community and the ANTHC will revisit this environmental review to determine if potential environmental concerns have been addressed.

Chris Campbell

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Facility: Repair and Expansion

Location: False Pass, Alaska

Project Description: Health Clinic

Category	Determination (Yes or No)	Basis for Determination (Documentation, <i>see last page</i>)
PART I.		
1. Does this project include construction or lease of new facilities which will total more than 1080 square meters (12,000 square feet)? (Include portable facilities and trailers.)	No	Printed Materials— The proposed health facility in False Pass, Alaska will total under 12,000 square feet.
2. Does this project involve the construction or lease of new facilities on more than 2 hectares (5 acres) of land?	No	Printed Materials – Less than 2 hectares (5 acres) will be involved in the proposed False Pass, Alaska facility.
3. <u>Historic Preservation</u> : Will the proposed project construction or renovation adversely affect properties listed, or eligible for listing, on the National Register of Historic places (buildings, archaeological sites, objects of significance)? If a property is more than 50 years old and no determination of eligibility was done, the agency <u>must</u> evaluate and nominate the facility. Contact the State Historic Preservation Officer (SHPO) and document the contact and SHPO response.	No	No historic properties eligible or on the National Register of Historic Places will be adversely impacted by the construction of health clinic expansion in False Pass, Alaska. The State Historic Preservation Officer will consult for concurrence with this finding.

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Facility: Repair and Expansion

Location: False Pass, Alaska

Project Description: Health Clinic

Category	Determination (Yes or No)	Basis for Determination (Documentation, <i>see last page</i>)
4. Will the proposed project construction or renovation violate local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that generate those items include renovations, new construction, air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, medical centers, etc. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	No	Printed Materials – The proposed project in False Pass, Alaska does not violate local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes.
5. Will the project result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or Local) law or requirements imposed for protection of the environment or public health and safety? REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.1., K.2.	No	Printed Materials – The project will be in compliance with all applicable laws and requirements and will have the appropriated regulatory approvals.

Facility: Repair and Expansion

Location: False Pass, Alaska

Project Description: Health Clinic

Category	Determination (Yes or No)	Basis for Determination (Documentation, <i>see last page</i>)
6. Will the proposed project or construction or renovation result in a conflict with existing or proposed state, federal and local land use plans?	No	Printed Materials – The project site is not zoned. The False Pass, Alaska City and/or Traditional Councils have identified this project as an essential community facility.
7. Is the project significantly greater in scope than normal projects for the area or does the project have significant unusual characteristics? REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.11.	No	Printed Materials – The proposed clinic project in False Pass, Alaska is typical in scope in comparison with ANTHC health facility improvement projects in rural Alaska and has no unusual, significant characteristics.
8. Does the project have significant adverse direct or indirect effects on parklands, other public lands, or areas of recognized scenic or recreational value? REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.5.	No	Printed Materials – Alaska Wildlife Refuges, U.S. Fish and Wildlife Service. The community of False Pass, Alaska is not located with in parklands, other public lands, or areas of recognized scenic or recreational value.

Category	Determination (Yes or No)	Basis for Determination (Documentation, <i>see last page</i>)
9. Is there a controversy with respect to environmental effects of the project based on reasonable and substantial issues? REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.3.	No	Personal Contact -- Reference the attached resolutions signed by the tribal and city councils from the community of False Pass, Alaska. <i>Or</i> Based on project engineer consultation with local authorities, specifically representing the Tribe/City of False Pass, no controversy exists with respect to this project.
10. Does the project establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects? (cumulative impact based on current information) REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.6.	No	Printed Materials-- The health facility construction project in False Pass, Alaska is not anticipated to result in any cumulative impacts that will result in degradation of environmental concerns as outlined in NEPA.
11. Does the project involve the use, transfer or lease of real property which has been used as a storage for hazardous waste and/or petroleum products or their derivatives for more than one year? REFERENCE: Comprehensive Environmental Response, Compensation and Liability Act of 1980/FR Vol. 58, No.3, K.10.	No	Personal contact -- The project engineer, in consultation with the City/Tribe of False Pass, Alaska confirms that real property associated with the health facility project in False Pass, Alaska has not been associated with the use, transfer, or lease as storage for hazardous waste for more than one year.

Facility: Repair and Expansion

Location: False Pass, Alaska

Project Description: Health Clinic

PART II		
12. Will the proposed project construction or renovation require major sedimentation and erosion control measures? (e.g.; construction or expansion of a parking lot)	No	Printed Material- The proposed health facility project will be constructed in an area which does not affect soil erosion or sedimentation.
13. Will the proposed project construction or renovation adversely affect community noise levels?	No	Printed Material – This project will not affect community noise levels because no blasting will occur and heavy equipment use will be limited to the daytime.
14. Will the proposed project construction or renovation adversely affect community air pollution?	No	Printed Material – The proposed health facility project in False Pass, Alaska will not adversely affect air pollution. The project is located in an unclassified area with no identified air pollution problems, and it will have minor to no effect on local air quality.
15. Will the proposed project construction or renovation create a need for additional capacity in educational facilities?	No	Printed materials- The proposed health facility project at False Pass, Alaska will not affect any need for additional capacity in educational facilities.
16. Will the proposed project construction or renovation create a need for additional capacity in health care facilities and for health care services?	No	Printed Materials – The proposed health facility project is not anticipated to create a need for additional capacity in health care facilities and for health care services because it will not affect community population levels.
17. Will the proposed project construction or renovation create a need for additional energy supply or generation?	No	Printed materials – Due to improved energy efficiency, the proposed health facility project is expected to use a comparable amount to the one to be replaced.

Facility: Repair and Expansion

Location: False Pass, Alaska

Project Description: Health Clinic

18. Will the proposed project construction or renovation create a need for additional capacity at solid waste disposal facilities?	No	Printed materials – The proposed health facility project is not anticipated to create a larger solid waste disposal facility.
19. Will the proposed project construction or renovation create a need for additional capacity at wastewater treatment facilities?	No	Printed materials – The proposed health facility project is not anticipated to require an enlarged wastewater treatment facility.
20. Will the proposed project construction or renovation create a need for/or require a storm water control plan? (e.g.; parking lots. Contact local or state authorities, or EPA to determine if your facility or project is in a regulated storm water area.)	No	Printed materials – The proposed health facility project will be extremely limited in overall surface area and is not expected to significantly affect storm water control in False Pass, Alaska. Storm drainage will be directed away from the building and parking areas. The project is outside of a regulated storm water area.
21. Will the proposed project construction or renovation create a need for additional drinking water supply?	No	Printed materials – The proposed health facility project will not create a need for additional drinking water supply as the same population will continue to be served as previously.
22. Will the proposed project construction or renovation create a need for additional capacity in transportation systems?	No	Printed materials – The proposed health facility project in False Pass, Alaska will serve the same population in a community lacking a transportation system.
23. Are there other considerations about the proposed project construction or renovation that could adversely affect the environment and/or public health and safety?	No	Printed materials – The proposed health facility project in False Pass, Alaska is not anticipated to adversely affect the environment and/or public health and safety. No toxic building materials will be utilized.

Project Description: Health Clinic

PART III		
24. <u>SAFE DRINKING WATER ACT</u> : Will the project impact a sole source aquifer? REFERENCE: Safe Drinking Water Act of 1974/FR Vol. 58, No.3, K.5.	No	Personal Contact – Letter on file from Michael Crotteau, Alaska Department of Environmental Conservation August 1999. There are no designated sole source aquifers in Alaska.
25. <u>FLOODPLAINS</u> : Will the project involve construction in a floodplain (except for actions excluded as a class) or impact floodplain development? REFERENCE: Executive Order 11988 and related Acts and Executive Orders/FR Vol.58, No.3, K.5., K.9.	No	Although False Pass, Alaska lies in a floodplain, and health facility construction is in a floodplain, it will be conducted in accordance with class action requirements (IHS Environmental Review Manual 2.2.3:18), and work will not adversely affect Floodplain development. There are no flood plain maps available for the community, and the community does not participate in the National Flood Insurance Program.
26. <u>WETLANDS/WATER RESOURCES</u> : Will the project adversely affect wetlands/water resources or will there be construction in wetlands, except in conformance with a Corps of Engineers Section 404 Permit? REFERENCE: Executive Order 11990 and related Acts and Executive Orders/FR Vol. 58, No.3, K.5.	No	Printed materials – All construction will be done upon consultation with the US Army Corps of Engineers (COE) and in conformance with any requisite COE permit.

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Facility: Repair and Expansion

Location: False Pass, Alaska

Project Description: Health Clinic

27. <u>Coastal Zone Management</u> : Will the proposed project construction or renovation directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan? (Each coastal state should have a state office to manage its coastal zone development and use. All federal projects in the coastal zone must comply with the management plan.)	No	A Coastal Zone Questionnaire will be submitted by False Pass, Alaska.
28. <u>WILD AND SCENIC RIVERS ACT</u> : Is the project a "Water Resources Project" which will impact a wild, scenic or recreational river area and create conditions inconsistent with the character of the river? REFERENCE: Wild and Scenic Rivers Act of 1968 and related Executive Actions/FR Vol. 58, No.3, K.5.	No	Printed Materials – <i>Wild and Scenic Rivers (Alaska) List</i> , National Wild and Scenic Rivers System, National Parks Service. This project is not a "Water Resource Project" that will impact a wild, scenic, or recreational river, hence will not create conditions that are inconsistent with the character of the river.
29. <u>FARM LAND PROTECTION ACT</u> : Will the project convert significant agricultural lands to non-agricultural uses? REFERENCE: Farmland Protection Policy Act of 1981 and related Acts and Executive Orders/FR Vol. 58, No.3, K.5.	No	Personal Contact – Letter on file from Steve Tickett, Alaska Department of Natural Resources, July 1999. The community of False Pass, Alaska is not located within an identified significant agricultural area.

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Facility: Repair and Expansion

Location: False Pass, Alaska

Project Description: Health Clinic

30. <u>WILDERNESS ACT</u> : Will the project adversely impact a wilderness area? REFERENCE: Wilderness Act of 1964/FR Vol. 58, No.3, K.5.	No	Printed Materials – Great Outdoor Recreation Pages, Alaska Wilderness Area List. The community of False Pass, Alaska is not located in a designated wilderness area.
31. <u>ENDANGERED SPECIES ACT</u> : Is the project likely to adversely affect a species listed on the Federal List of Endangered or Threatened Species or the specific critical habitat? REFERENCE: Endangered Species Act of 1973, as amended/FR Vol. 58, No.3, K.8.	No	Printed Materials – <i>Endangered, threatened and candidate species in Alaska</i> , U.S. Fish and Wildlife Service, December 2000. Although the community of False Pass will be in the vicinity of critical habitat for Stellars Eider species, which is endangered construction will take place within established community boundaries of False Pass, Alaska, and, therefore, work is not anticipated to adversely affect the noted threatened or endangered species.

I certify that to the best of my knowledge and ability the information presented herein is true and correct.

Community Base Map-Maps are based on shore line use, ownership, location of all, lines, and to the extent of the map. These maps can be prepared by either surveying the land on the ground or through aerial photography. The height determines the extent of the map covered by the photograph.

The Community Base Map was prepared from a North Pacific Aerial Survey, Inc. photograph of 1960. The map was enlarged to a scale of 1:2,400 (1 in. = 200 ft.). This map has been used to determine the location of the community, and various community studies and can be used in the future to develop the area for village expansion and to locate new construction.
